

## **IMUNOBOR® Family**

### **Program for the Immune System**

- *If you often suffer from recurrent infections*
- *If infection runs severely and is protracted*
- *If wound healing is impaired*
- *If you feel always tired and fatigued*

*You need Imunobor*

### **The Immune System And Good Health**

The immune system is the ground/basis of the good health. It protects the organism from infections and other diseases. Stress, overwork, poor nutrition, use of antibiotics, chronic diseases (e.g. diabetes) and other factors lead to weakening of the immune system. Then the organism becomes susceptible to viral, bacterial and other infections. They run severely, with long duration and the organism recovers slowly. The impaired immunity is also a reason for malignant diseases.

**You can boost your immune system by:**

- Overcoming the stress
- Avoiding physical and psychological exhaustion
- Proper nutrition
- Regular intake of Imunobor

## **IMUNOBOR® Family**

### **Powerful Immunostimulators to Boost Immunity**

### **Summary of Product Information**

#### **IMUNOBOR**

*Immunostimulator for adults*

It contains four complementary natural products connected to the immunity. Each capsule contains high quality extracts of Uncaria tomentosa (Cat's Claw), Pau D'arco, Maca root and Yerba mate. They are the most powerful immune enhancing herbs of all the herbs native to the Peruvian Amazon. Their powerful immunostimulating effect has been known from Antiquity. Dosage: 1 capsule 3 times daily during the first 10 days, after that 1-2 capsules daily as maintaining therapy.

## Imunobor Usage

- Frequent illness
- Infections
- Prophylaxis
- Chronic fatigue
- Neoplasm
- Wound healing

## **IMUNOBOR Kids**

*Immunostimulator especially developed for children*

Rational combination of beta glucan and Echinacea. Dosage: 1– 3 capsules daily before meal depending on the age of the child. For smaller children the capsule may be opened.

## Imunobor Kids Usage

- Children suffering from frequent illnesses
- Infections
- Prophylaxis
- Bacterial carrier state
- Wound healing

## **IMUNOBOR Broncho**

*Immunostimulator for the respiratory system*

Combining the power of Cat's Claw and Echinacea. Dosage: 1 capsule 3 times daily during the first 10 days and then continue treatment with 1-2 capsules daily.

## Imunobor Broncho Usage

- Respiratory infections
- Bacterial carrier state
- Prophylaxis

## **IMUNOBOR Uro**

*Especially for urinary tract infections*

The unique combination of cranberry and beta glucan. The cranberry does not allow the bacteria to adhere the urinary tract mucosa, suppresses the inflammation and pain. Beta glucan increases the immune protection. Dosage: 1-3 capsules daily. In acute urinary infections the treatment course lasts 3 months; in recurrent infections – from 6 to 12 months; in asymptomatic bacteriuria – till clearance of bacteria in urine culture.

## Imunobor Uro Usage

- Urinary tract infections
- Prophylaxis of recurrent infections

- Asymptomatic bacteriuria

### **IMUNOBOR Biotic**

*Restores the balance of normal gut flora and immune barrier*

It contains probiotic *Lactobacillus bulgaricus* and immunostimulator beta glucan. Dosage: 1-3 capsules daily before meal.

#### Imunobor Biotic Usage

- Gut infections
- Diarrhorea
- Antibiotic therapy
- Dysbacteriosis (imbalance of the normal gut flora)
